Actively learning, growing and seeking more challenges to expand my knowledge and experience so that I can positively impact and excel in any environment I am put into.

SKILLS

Agentic AI (CrewAI)	FastAPI (level 3 - HATEOAS)	Pytorch	Python
LLM & RAG Systems	DataBricks (PySpark)	PowerBI	SQL

EXPERIENCE

WALMART CENTER OF TECH EXCELLENCE - AI Engineer Intern

Jun 2025 - Aug 2025

- Worked on a project to identify emissions of harmful gases from micro, small and medium industries using satellite data.
- Trained a contrastive learning model on 7,000+ multi- and hyper-spectral satellite images to infer industrial pollution levels, achieving a 87% accuracy in emission classification across test regions.

HYUNDAI MOTORS INDIA LTD - Data Analytics Intern

Oct 2024 - Apr 2025

- Conducted supply chain risk assessment through real time data analysis and designed interactive dashboards to gather insights.
- Created audit automation systems that helped to avoid repetitive work and optimize the project timeline.
- Built a project management system to improve day-to-day team efficiency and to provide actionable insights during meetings

PROJECTS

Communication System for Disaster Relief Operations

May 2024 - June 2024

- Developed a disaster-resilient communication network with a hand-crank powered unit that enables resource requests via a mobile app.
- The system transmits requests to relief agencies, who receive a supervision platform as part of the project.
- Performed the feasibility analysis for the project using government data sources.

Iris Tracking Communication Aid for Paralyzed people

Mar 2024 - Mar 2024

- Developed **eye tracking** software for fully paralyzed individuals to communicate.
- It tracks eye movements, listens to conversations, and uses **AI to generate responses**, which are selected by eye movement and spoken aloud.

Autonomous Underwater Vehicle for Defect Detection in Dams

Nov 2023 - Dec 2023

- Autonomous underwater drone that detects and repairs cracks, corrosion, and abrasions in dam structures.
- Developed and integrated an **AI detector** for the drone which automatically detects cracks, rust, abrasions and also developed an automatic **surveillance algorithm** for the drone.

KEY ACHIEVEMENTS & CERTIFICATES

- **Hackfest 2024** - 2nd place at national hackathon (**prize: 1.5 lakhs**)
- **Smart India Hackathon** - Winner - 2025 (**Prize : 1 Lakh**), Finalist - 2024
- **National Hackathon MIT** - Winner (**Prize : 30000/-**)
- **IIT PALS INNOWAH National Hackathon** - Winner (**Prize : 15000/-**)
- **Delegate** - Invited as delegate and exhibitor at Startup Mahakumbh 2024
- **AWS Certified AI Practitioner**
- **Python for Data Science** - NPTEL certification

EDUCATION

B.Tech Artificial Intelligence and Machine Learning

Nov 2022 - Present

Rajalakshmi Engineering College
